TAG-3B

3X Magnifier

FTX-4060-BRS-D1 Rev1

TAG-3B, is a battle proven 3X magnifier (w/out reticle) specifically designed to be used with Holographic Weapon Sights and Reddot Sights for distant shooting. Its flip to side mount allows easy and effortless transition from 3X to 1X. With the adjustment turrets the user can fine tune the image for centered aiming.
